

- 41 "Passive lifestage, substrate-related nematode"
- 44 Substrate-inhabiting enchytraeid
- 31 Bacterivore flagellates
- 37 Bacterivore enchytraeid
- 34 Bacterivore ingesting earthworm
- 45 Substrate-ingesting amoebae
- 36 Bacterivore (heterotrophic) producer bacteria
- 48 Primary (heterotrophic) consumer nematodes
- 51 Predating nematode (consuming nematodes)
- 92 Predatory mite (parasitizing mites and nematodes)
- #0 plant autotrophs (roots)
- 49 primary (heterotrophic) producer fungi
- 62 plant-feeding nematode (attacking arthropods)
- 11 plant-feeding nematode (attacking arthropods)
- 52 Macrophytophage and pteridophyte mite
- 13 plant-feeding insect (springtail)
- 72 Generalist mite
- 81 Omnivore nematode
- 82 Omnivore mite
- 23 Fungivore enchytraeid
- 24 Fungivore nematode (feeding on fungi)
- 22 Microphytophage mite
- 21 Fungivore nematode
